EXECUTIVE SUMMARY

Project Title:

Customer Churn Business Analysis

Objective:

The objective of this project is to analyze customer churn behavior and identify factors affecting customer retention.

Key Findings:

1. Month-to-month customers showed higher churn risk.
2. Customers with shorter tenure were more likely to churn.
3. Monthly charges influenced churn behavior.
4. Predictive analysis successfully identified churn patterns.

Business Recommendations:

1. Provide loyalty offers to high-risk customers.
2. Improve onboarding for new customers.
3. Create retention campaigns for short-tenure customers.
4. Monitor churn metrics regularly.

Conclusion:

The project successfully demonstrated an end-to-end business analysis workflow using customer churn data.
